

# Cobra SB Cam Locks

The Cobra disc wafer *Single Bitted* cam locks are designed for a variety of OEM applications. The lock is a die-cast construction, with brass wafers and a brass key.

The Cobra SB Cam Locks can be keyed alike or keyed different and are supplied with two keys per lock. The lock can either be nut or clip mounted.

These locks are designed around the industry standard 54G keyway and can be keyed into systems and lock codes from, Fort®, Nationa Lock®, Ilco®, Royal Lock®, Illinois Lock®, Hudson Lock® and others.

Contact us to get additional information on this and other Cobra locks that can provide additional security at reasonable prices.
