

# Cobra & CobraMatic Vending Locks

**Cobra 1000**

The **Cobra 1000 Series** standard vending lock comes in two versions; the standard tubular vending lock and the Cobramatic 8-Change vending lock.

All **Cobra 1000 Series Locks** provide a higher level of security adding an improved anti-drill ball positioned in the center of the spindle, and shielded pin stack on the standard tubular vending lock.

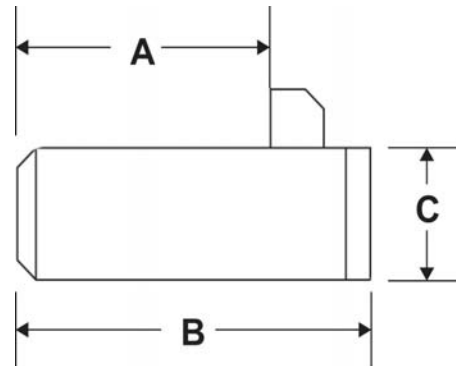

Both are available in either Spring Bolt or Dead Bolt.

The original Tubular series and Cobramatic series provides the ability to continue current systems from other manufacturers.

Our Cobra 7 & CobraMatic Series Vending Locks are available for patented protection.

**CobraMatic**
